

How to Complete the Monitoring Review Activity

For Service Areas

This resource is intended to outline the Monitoring Review activity for service areas. Monitoring Reviews may be on-site or virtual. Monitoring Reviews may result in a Corrective Action Plan (CAP) or Child Level Corrective Action Plan (CLCAP).

Access the Activity

1. Log in to [Catamaran](#)
2. Access the activity in two ways:
 - On the Dashboard, scroll down to the **Tasks Overview** section. Use the filters, as needed, to narrow tasks, and select the link in the **Activity** column to open the Monitoring Review Activity.

Tasks Overview

Your tasks will populate in the overview below. If you have reports to acknowledge in a major release, the tasks will not populate until you have acknowledged your reports. If you have tasks from a minor release (such as a Complaint CAP), you do not have to acknowledge reports for the tasks to populate in the overview. Click on the link in the Activity column to go directly to that task. To narrow the view of your tasks, sort each column by clicking on the red caret to sort in ascending or descending order. You may also use the filters available to you by clicking on the Filter link to the right.
