FROM: Teri L. Rink, Ed. S., Director
Office of Special Education

SUBJECT: Determinations Notification

I am writing to advise you of the Michigan Department of Education's (MDE) 2021 determination under section 616 of the *Individuals with Disabilities Education Act* (IDEA). The MDE has determined that Sample ISD Name Meets Requirements in implementing the purposes and requirements of Part B of IDEA. This determination is based on the totality of the Intermediate School District's (ISD) data and information, including the Federal fiscal year (FFY) 2019 State Performance Plan/Annual Performance Report (SPP/APR), other federally reported data, as well as other ISD-reported data.

The ISD's 2021 determination is based on the data reflected in the ISD's "2021 MDE Part B Results-Driven Accountability Matrix" (MDE-RDA Matrix). The MDE-RDA Matrix is individualized for each ISD and consists of:

- Results Matrix that includes scoring on Results Elements.
- Compliance Matrix that includes scoring on Compliance Indicators and other compliance factors.
- Results Score and a Compliance Score.
- RDA Percentage based on both the Results Score and Compliance Score.
- ISD's Determination.

The MDE-RDA Matrix and data are more fully explained in the document, entitled "How the Michigan Department of Education Made 2021 ISD Determinations under Section 616(d) of the *Individuals with Disabilities Education Act*."

The MDE is continuing to use both results data and compliance data in making determinations in 2021. In making Part B determinations in 2021, the MDE used results data related to:

STATE BOARD OF EDUCATION

CASANDRA E. ULBRICH – PRESIDENT • PAMELA PUGH – VICE PRESIDENT
TIFFANY D. TILLEY – SECRETARY • TOM MCMILLIN – TREASURER

- ELA and Math proficiency of students with IEPs on any Statewide assessment at fourth and eighth grades.
- Percentage of students with IEPs who graduated with a regular high school diploma.
- Percentage of students with IEPs who dropped out.

The MDE used compliance data related to:

- Suspension and Expulsion of students with IEPs.
- Disproportionate Representation in Special Education of students with IEPs due to inappropriate identification.
- Disproportionate Representation of students with IEPs in Specific Disability Categories due to inappropriate identification.
- Timely initial evaluations.
- Timeliness of Part C to Part B Transition.
- Secondary Transition of students with IEPs.
- Timeliness of IDEA Data Reported through the Michigan Student Data System.
- Special Education Single Audit Findings.
- Longstanding Noncompliance.

The MDE is pleased to inform you that your ISD data for results and compliance data meet the purposes and requirements of section 616(b) as described in the above reference document - "How the Michigan Department of Education Made 2021 ISD Determinations under Section 616(d) of the *Individuals with Disabilities Education Act*." Even as the ISD meets the purposes and requirements of IDEA for 2021, there continues to be a need for improvement in individual districts in the ISD. Through an analysis of member district data, the ISD may determine appropriate technical assistance on the identified needs for improvement.

Thank you for your continued work to improve results for children and youth with disabilities and their families. MDE will continue to provide technical assistance and resources to improve educational results and functional outcomes for children with IEPs, as well as all Michigan children, in the coming school year. We encourage the ISD to take advantage of the assistance and resources. MDE looks forward to reviewing the ISD's new determinations data, next year in 2022. If you have any questions, please contact Teri Rink at rinkt1@michigan.gov.

¹ Statewide assessments were waived for school year 2019-2020, therefore assessment data is from school year 2018-2019.
